

MASTER CLASS

JUNE 6-7, 2024

GENT, BELGIUM | ORSI ACADEMY | VISCERAL PROFESSIONALS

HPB
BARIATRIC
COLORECTAL

Organised by

Partner of

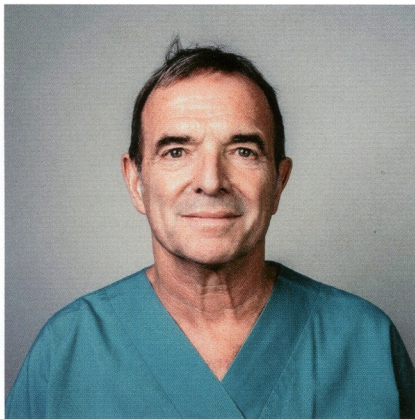

DEAR PARTICIPANT,

The EUROPEAN SCHOOL OF LAPAROSCOPIC SURGERY, ORSI ACADEMY and the BOWA ACADEMY invites you to join our training course on "General and Visceral surgery".

As director of the Master Class course, I am responsible for the scientific agenda of this Master Class.

This highly sophisticated training program, designed in conjunction with international surgeons, offers you an outstanding introduction to the latest concepts in visceral surgery, including the pros and cons of various techniques. This course concept, led by experienced and internationally renowned faculty members, gives every participant the opportunity to share their experience with the group.

The entire scientific team is looking forward to meeting you at ORSI.

Course director

Prof Dr Guy-Bernard Cadière, MD PhD

Université Libre de Bruxelles

Director of the European School of
Laparoscopic Surgery

MASTER CLASS

HALF THEORITICAL, HALF PRACTICAL CADAVER LAB HANDS-ON.

This intensive and specialised Master Class offers participants the opportunity to engage in a hands-on practice session whilst receive guidance from specialists during cadaver lab sessions.

The emphasis on providing ample time for practice is crucial for participants to develop proficiency in various techniques.

Additionally, the inclusion of high-quality lectures offers a well-rounded learning experience that combines theoretical knowledge with practical skills.

Having an expert leading each subgroup on a daily basis adds significant value to the Master Class course. This allows for a more focused and tailored learning experience for participants within each subgroup.

Target Group

Surgeons from various disciplines in visceral surgery who have some experience and an interest in learning the latest techniques of laparoscopic surgery.

Cadaveric tissue

Thanks to our partnership with KU Leuven & Ghent University, this course will offer both animal tissue and cadavers.

PRACTICAL CADAVER LAB HANDS-ON SESSIONS

Eight Stations will be set up for the human cadaver hand on training.

Three participants per station – Four experts on hand. Experts, faculties will support the cadaver hands on training.

HPB

Chairman **PETROWSKI HENDRIK PhD**

Day
1

Senior Physician, Department of Visceral and Transplant Surgery. Head of the surgical team at the Swiss HPB Center Zurich.

Chairman **SERRABLO ALEJANDRO PhD**

Day
2
